How To Disable Bidirectional Printing Support For HP LaserJet P2035n

SYMPTOM / ISSUE
When printing to the HP LaserJet P2035n, the printer prints continuously until the printer is out of paper.

SOLUTION
Bidirectional Printing Support needs to be disabled.

Step 1 : Click on Windows Button / Start (WinXP) and go to Control Panel
Step 2: Open *Devices and Printers / Printer and Faxes* (WinXP)

Step 3: Right click on the HP LaserJet P2035n Printer and select *Printer properties*
Step 4: On the Properties Windows select *Ports* Tab

Step 5: Under *Ports* untick *Enable bidirectional support* and then click on Apply and OK.

The issue should now be solved.
