CHILD DEVELOPMENT CENTRE

Introduction to IIUM EDUCARE

Today's demanding social environment has created a market trend whereby child care is an increased utilization by parents. This is fuelled by the parent's desire/need to go back to work, generating income for the family. While this trend fuels the need for more general child care facilities, it also generates demand for facilities that offer child development.

As parents are spending less and less time with the children, they have less time to help them develop. The trend is moving demand away from solely baby sitting child care to child development care.

EDUCARE was developed for that sole purpose.

What is EDUCARE?

EDUCARE provides a conducive environment that is loving, supportive, safe and imbued with Islamic spiritual values, for families who require services for kindergarten and day care for their children, that meets the intellectual, moral, social, emotional and spiritual needs of each child.
